Refund of excess water charges to the K.G.F. Sanitary Board.

(8)

General and Revenue Secretariat | File No. of 194 . | [App. F. III-2

Serial No.

(96) These papers relate to the claim of the K.G.F. Sanitary Board for a refund of excess water charges collected from the private consumers.

(97) The claim put forward is for the difference between as.9-ps-6 per 1000 gallons of water the Board should pay to Government for the supply of water as per G.O. of 24th January 1921 and at annas 15 per 1000 gallons charged to the private consumers in the Board area in accordance with the Government order of 3rd February 1930, extending over a period of 11 years from 1929-30 to the end of 1939-40. The amount of refund stated as due from the Water-supply Department is Rs.26,677-13-6.

(98) It is seen from the records that the request of the Board was made once in 1930 and it was referred to the Water Supply Division Executive Engineer, and the latter, after investigating the case, finally reported in March 1932 that the claim was untenable. Again the Board pressed the matter and in February 1933, a reply was given in the negative. The Sanitary Engineer now recommends the refund. The Director of Public Health in submitting his recommendation of 14-3-1941, proposed a deduction of the cost of the under-mentioned items from the sum claimed and the payment of the balance to the Board.

Cost of installation of meters inclusive of the fresh ones	Rs.5,500/-
Moiety of the salary of the Meter Inspector	Rs.4,250/-
Installation charges of meters in 14 charitable institutions	Rs. 700/-
Total	10,450/-

(99) After defraying the cost of the meter expenses, the sum stated to be due to the Board is Rs.16,227-13-6. The Director proposed that the entire amount might be

NOTE—Cont. Sheet.

WD C4155—GPB—55,000—23-10-41

53) The claim of the Kolar Gold Fields Sanitary Board for refund to them of the difference between the amount realised by Government from private consumers at 15 annas per thousand gallons and the amount payable by the Board at the bulk supply rate of 9 annas 6 pies per thousand gallons depends mainly on the interpretation of the financial implications of Government Order No. L. 5830-2 L.B. 50-28-19 dated 3rd February 1930. The Government Order itself is not self-contained and merely accords sanction to the "proposal of the Board in the matter of giving permanent house water connections in Robertsonpet Town." Details of the proposals sanctioned are not mentioned in the Government Order, and the discussions in the file leading to the Government Order do not give any clear indication of the exact intentions of Government at the time in regard to the further steps to be taken. A reference to the correspondence shows that the following conditions among others had been proposed by the Board:-

"(i) The party shall pay a royalty of Rs. 50/- to the Sanitary Board in view of the fact that it was the Board who bore the initial outlay of Robert-sonpet Water Supply Scheme;

(ii) He shall in addition pay to the Sanitary Board water consumption charges at 15 annas per thousand gallons plus metre hire."

54) The points now for consideration are whether the intention of the Government was that Water should be supplied by Government to the Sanitary Board at the bulk rate of 9½ annas per thousand gallons (as per para 3(i)

as to whether the supply to the private consumers should be treated as sale to them by the Water Supply Department direct and in response to this the Director of Public Healt says that the reply is in the affirmative. This view is not in consonance with his recommendation to refund to the Board the difference between the two rates of levy, since if water is treated as supplied to the consumers direct by Government and not out of the bulk supply made to the Board no question of refund would arise. I would like to have the further views of the Administrative Department on the points referred to by me and their definite opinion regarding the full implications of the Government Order that was issued from the Local Self-Government Department in February 1930.

To

The Secretary to Government,
Law Department, Bangalore

Sir,

Refund of excess water charges to the K.G.F.Sanitary Board collected from the private consumers at Robertsonpet.

I have the honour to enclose herewith a copy of letter No.931 dated 26/30th December 1940 of the Sanitary Engineer with copies of its enclosures on the above subject, and to state that in G.O.No.P.W.1131-94/M.6416/79 dated 24.1.1921 it was ordered that the Board should pay Rs.0-9-6 per thousand gallons of water supplied. In G.O.No.L.5830-2/L.B.50-28-19 dated 3.2.30, Government accorded sanction to the proposal of the K.G.F.Sanitary Board, whereby every consumer taking house connection is required to pay to the Board consumption charges at 15 annas per 1000 gallons plus meter hire.

According to the Government Order of 1930, two issues are raised viz., the charges for consumption and the meter hire.

As regards consumption charges, the Sanitary Engineer intimates that the matter of refunding the difference between 15 annas per thousand gallons and the rate of Rs.0-9-6 per thousand gallons that is to be charged to the Sanitary Board for the bulk supply, was referred by the Sanitary Board to the Water Supply Division Executive Engineer in 1930 and that the latter officer in his final reply dated 10.3.32 informed the Board that there did not seem to be any reason for the claim. The Sanitary Engineer further reports that when the matter was pressed again by the Sanitary Board, he in his letter dated 3.2.1933 replied that the question of refund did not arise. He now recommends for the refund to the Board of the excess water charges collected.

I am of opinion that the Sanitary Board has to be given the

Letter No.931 dated 26/30th December 1940 Encls.six f
the Sanitary Engineer, Bureau of Sanitary Engineering, to t
Director of Public Health in Mysore, Bangalore.

Regarding the excess water revenue recoverable from house connections in the Sanitary Board area.

I have the honor to enclose herein copy of letter No
).8/32-33 dated 26th August 1940 from the President, K.G.F.
Sanitary Board in connection with the above and to state
hat he informs that it has been resolved by the Board to
refer the question for orders of Government as the claims
of the Sanitary Board for refund of the excess water charge
are considered legitimate.

In this connection, I write to state that in Governm
rder No.P.W.1131-94 M.6416-79 dated 24th January 1921, it
rdered that the Board should pay Rs.0-9-6 per thousand gall
f water supplied to them. In connection with the granting
f house connections in the Sanitary Board area, Orders of
overnment were passed in G.O.No.L.5830-2/LB 50-28-19 dated
rd February 1930 sanctioning the proposal of the Board,
ccording to para 3 of which the person taking the house co
ection shall pay to the Sanitary Board water consumption
harges at 15 annas per thousand gallons according to the
ouse meter plus meter hire.

According to this para, there are two issues raised:
ne is the fixing of the meters with the consequent recover
f the meter hire; while the second is the payment of the
ater consumption charges at 15 annas per thousand gallons.

As regards the first, there are at present 180 house
onnections (excluding charitable institutions) of which 150
re already metered: the other 30 are being metered during
he current year, and when this is completed, there will be

to the Sanitary Board: Accordingly, the Executive Engineer Water Supply Division was requested by the Sanitary Board in their letter No.C.16/29-30 dated 20th May 1930 to intimate the arrangements made to give credit of the amount contemplate above - that is the difference between 15 annas per thousand gallons recovered from the private consumers and the rate of 0-9-6 per thousand gallons that is to be charged to the Sanitary Board for the bulk supply. The Executive Engineer, Water Supply Division, however, has finally replied in his letter dated 10th March 1932 that there does not seem to be any reason for the K.G.F. Sanitary Board to claim the above amount and when the matter was pressed again, this office has replied in letter No.1379 dated 3rd February 1933 that the question of refunding does not arise. Copies of the above letters are enclosed herein for ready reference.

I feel that the Board ought to be given the advantage of the difference between the two rates viz., Rs.0-15-0 and 0-9-6 commencing from the date of the Government Order viz., February 1930. The Vice President, Sanitary Board, has been all along pressing for the refund of this amount and representations on this were also made to the Second Member of Council during his tour in October 1940. Copy of letter No. C8/32-33 dated 26th August 1940 from the Vice President, K.G.F Sanitary Board in the matter is also enclosed for information.

I enclose herein a statement showing the consumption of water in the private connections situated in the Sanitary Board area month after month from February 1930 to date: It will be seen from this statement that the total amount due to be refunded to the Sanitary Board up to the end of 1939-40 will be Rs.26,677-13-6. As already stated above, about 150 meters have already been fixed upon the existing house connections and the work on other 30 is in progress. It may be desirable to recover from the above amount due to be refunded to the Sanitary Board, the cost involved in the installation

that this be deducted from the amount payable to the Sanitary Board.

As stated in para 3 above, there are 14 charitable institutions on the connections of which meters have still got to be installed. These connections are of a more bigger than ½" so that it would be necessary to instal meters of a bigger size on them. The cost of this work will be about Rs.700/- and the Vice President, K.G.F. Sanitary Board desires that these meters be installed immediately thereby completing the metering work.

Following the principle of debiting the expenditure incurred upon the installation of meters to the Sanitary Board referred to above, the amount of Rs.700/- required for the installation of these 14 meters will also have to be recovered from the amount due to be refunded to the K.G.F. Sanitary Board so that including this, the total amount required to be adjusted will be Rs.10,450/-.

The excess revenue of Rs.26,677-13-6 referred to above has been credited to the gross realisations of the K.G.F. Water Works year by year; so, the amount due to be refunded will also be debited to the same account viz., gross realisation of K.G.F. Water Works and credited to the accounts of the K.G.F. Sanitary Board.

125+34 500 325

Favour of early orders in the matter of recovering the meter hire from 1st January 1941 and in the matter of refunding the above amount to the K.G.F. Sanitary Board is requested.

Enclosures:-

Letter No.C.8/32-33 dated 26th August 1940 from the President, K. G. F. Sanitary Board, Champion Reefs to the Sanitary Engineer, Bureau of Sanitary Engineering, Bangalore.

Subject:- Refund of excess water charges to the K.G.F. Sanitary Board, collected from the private

in his letter No.511 dated 26th February 1932 that the refund will be made to the Board on receipt of a regular bill in duplicate.

The Executive Engineer was informed in this office letter No.C.16 dated 29th February 1932 that it is not possible to prepare a refund bill in this office as no information is available in this office as to the number of houses for which water connection have been given and the amount actually collected by them and was requested to supply the information to send a refund bill. He has however in his letter No.609 dated 10th March 1932 replied that there does not seem to be any reason for the K.G.F.Sanitary Board to have any claim on this account. Thereupon he was again requested in this office letter No.C.8/32-33 dated 8th August 1932 to give credit to the Sanitary Board the excess water charges as sanctioned by Government. The rate of 15 annas recovered from the private consumers include all the proportionate charges on account of K.G.F. water works, the pay of Meter Inspector who is supervising the maintenance works and reading meters and arranging the collection of meters as also the charges of telephone attendant and the pay of K.G.F. Superintendent of water works referred to in his letter. He was also informed that the interior distribution at Robertsonpet belongs to the Sanitary Board.

The Executive Sanitary Engineer, Bureau of Sanitary Engineering, in his letter No.1379 dated 3rd February 1933 has stated that no question of refunding the charges as claimed by the Sanitary Board arises in the circumstances stated in the letter (copy enclosed. The reason given in the letter are not new.

This letter was placed before the Board at their meeti held on 28th February 1936 and they have resolved to refer

The rate of 0-9-6 per thousand gallons allowed to the Board is only a concession rate. For the reason that the private taps are situated in the Sanitary Board area and water connections are invariably given on the consent of the Board, there exist no reason for the Board to claim any refund. Further the object of the Government is to work the scheme so as to avoid incurring any loss. For this very reason, the Government Order No.8979 L.B. 87-08-10 dated 16th March 1909 was revived.

Lastly, at present, a sum of Rs.50/-is being levied and recovered by the Board in each case for installation in the shape of royalty by the owners, and this sum is not being credited to this Department.

Under the above circumstances, no question of refunding the charges as claimed by you arises.

Letter No.C8/32-33 dated 17th January 1933 from the President, K. G. F. Sanitary Board, Champion Reefs to the Executive Engineer, Bureau of Sanitary Engineering, Bangalore.

I have the honour to invite reference to this office letter No.C8/32-33 dated 8th August 1932 and subsequent reminders dated 26th September 1932, 2nd November 1932 and 28th November 1932 addressed to the Executive Engineer, Water Supply Division, Bangalore, in the matter of refund of excess water charges collected from the private consumers at Robertsonpet i.e., the difference between the rate of 15 annas charged by the Water Supply Department to private consumers and the rate of 0-9-6 due by the K.G.F.Sanitary Board.

As this question is pending settlement for a long time, I request you to kindly intimate to me when a final reply may be expected in the matter.

It is after considering the above facts, that the Government have in their Order No.L.5830 L.B. 50-28-19 dated 3rd February 1930, sanctioned the proposal of the Board in the matter of giving permanent house connections subject to certain conditions and one of the conditions is that theprivate owners shall in addition to the royalty of Rs.50/- pay to the Sanitary Board water consumption charges at 15 annas per 1000 gallons. In these circumstances, the question referred to by you in your letter of 10th March 1932 does not arise.

I request you therefore to kindly arrange to give credit to the K.G.F. Sanitary Board, the excess water consumption charges at the rate of 0-5-6 per thousand gallons recovered by you as already sanctioned by Government in their Order dated 3rd February 1930 cited above.

Letter No.609 dated 9/10th March 1932 from the Executive Engineer, Water Supply Division, Bangalore to the Vice President, Sanitary Board, Kolar Gold Fields, Champion Reefs.

With reference to your letter No.C.16/29-30 dated 29th February 1932 regarding refund to you the excess water charges collected from the private consumers at Robertsonpet at (Ø-15-0 minus 0-9-6 or at 0-5-6 per thousand gallons) I have the honor to inform you that it is since reported by the Superintendent, Kolar Gold Fields Water Works, that in addition to the permanent establishment consisting of five hands employed for maintaining the pipe line distribution at Robertsonpet for which the K.G.F. Sanitary Board pays the cost, the Government has been bearing other indirect charges by way of (1) the K.G.F. Water Works, Meter Inspector supervising the maintenance works and reading meters and arranging the collection of amounts from the consumers,

fix any reasonable rate they like, since it is a regular sale of water to them direct by this Department.

THE KOLAR GOLD FIELD SANITARY BOARD.

Proceedings of the 4th ordinary meeting of the K.G.F. Sanitary Board for the year 1940-41 held on Friday the 28th February 1941 at 3-30 P.M., in the K. G.F. Sanitary Board Office, Champion Reefs.

XXXX XXXXX XXXXX

17. Copy of letter received from the Sanitary Engineer to the Director of Public Health in Mysore, Bangalore containing the following proposals on the question of refund of water charges at 0-5-6 per 1000 gallons to the Board being the difference between the two rates, viz., 15 annas and 0-9-6 charged to private house connections and the Board respectively.

1) That the advantage of the Government Order be given to the Board from the date of Government Order (3rd February 1930)

2) That the cost of meters installed to private house connections be recovered from the Board.

3) That meter hire be charged to private house connections and credited to the Board hereafter according to size of meter as per terms of the Government order.

4) That a moiety of the salary of Meter Inspector who attends to the monthly meter readings and preparation of bills on behalf of the Board be met by the Board from the date of Government Order.

RESOLUTION:- Recorded with the observation that the Sanitary Board are agreeable to accept the terms offered in the letter. This approval may be conveyed to the Director of Public Health and the Sanitary Engineer.

BANGALORE.

SECY. LAW DEPT. 7 16 DEC. 1941 GOVT OF MYSORE

Sir,

Refund of excess water charges to the K.G.F. Sanitary Board collected from the private consumers at - Robertsonpet.

With reference to your letter No.L.3570 dated 7th November 1941 on the above subject, I have the honour to enclose herewith a copy of letter No.668 dated 4th November 1941 of the Sanitary Engineer, with a copy of the statement enclosed therewith showing details of expenditure under purchases and repairs incurred upon meters from 1921-22 to 1940-41.

The Sanitary Engineer states that the items of expenditure, excluding a sum of Rs.5,173-15-0 for purchase of venturi meters in 1921-22, pertain not only to the meters fixed on the house connections in the K.G.F. Sanitary Board Area but also to the Venturi meters installed at Champion Reefs for guaging the quantity of water supplied to the Mines. He says that it is not possible to allocate the expenditure between these two definitely and hence proposes to debit half the expenditure to the K.G.F. Sanitary Board, the other half as being incurred upon the maintenance of the venturi meter. According to this the cost to be borne by the K.G.F. Board will be Rs.5,152-10-4.

The Sanitary Engineer in his letter states that the total amount to be recovered out of the amount refundable to the Sanitary Board will be Rs.5,152-10-4 (expenditure on meters) and Rs.4,250/- (for establishment) making a total of Rs.9,402-10-4. He states that the sum of Rs.1,000/- for fresh installation of meters (included in this office letter No.C.1159-2 dated 17-3-1941) has been deposited by the K.G.F. Board and that the recovery of this amount does not

Regarding the proportionate establishment charges debitable to the Sanitary Board Area, this has already been discussed in the above letter No. 931 dated 30th December 1940. The proportionate establishment charges, as stated therein, will be Rs. 4,250/-, so that the total amount due to be recovered out of the amount refundable to the Sanitary Board will be Rs. 5,152-10-4 plus Rs. 4,250/- or Rs. 9,402-10-4. This figure however, does not include the sum of Rs. 1,000/- referred to in the above letter No. 931 dated 30th December 1940, since this sum of Rs. 1,000/- pertains to the expenditure on the installation of fresh meters hereafter. The Vice-President of the K.G.F. Sanitary Board has deposited with this office the sum required for the installation of fresh meters; hence, the recovery of this amount does not arise.

The Vice-President of the K.G.F. Sanitary Board has been repeatedly reminding this office about the settlement of this long pending question and hence I request that early orders of Government may kindly be obtained in the matter.

To
SECY. LAW DEPT. 23 DEC. 1941 GOVT OF MYSORE

The Secretary to Government,

Law Department,

Bangalore.

Sir

Refund of excess water charges to the K.G.F. Sanitary Board Collected from private consumers at Robertsonpet.

In continuation of this office letter No.C.1159-16 dated 15th December 1941 on the above subject intimating among other matters that the Sanitary Engineer has been asked to revise the figures already furnished by him, I have the honour to enclose herein a copy of letter No.840 dated 3rd December of the Sanitary Engineer with a copy of its enclosure viz., letter No.668 dated 4th November 1941(a copy of which was already submitted to Government with this office letter dated 15-12-1941) altering figures therein so as to pertain to the period ending June 1940.

As per the revised figures of the Sanitary Engineer the total amount to be recovered out of the amount refundable to the Sanitary Board will be Rs.4,639-0-9 (expenditure on meters i.e., half of the total expenditure of Rs.9,278-1-7) and Rs.4,250/- (for establishment) making a total of Rs.8,889-0-9 as against a total of Rs.9,402-10-4 as intimated in this office letter of 15th December 1941 referred to above.

I have the honour to be,
Sir,
Your most obedient servant,
S. Govindaraj
Director of Public Health.

Letter No.840 dated 3rd December 1941 from the Sanitary Engineer, Bangalore, to the Director of Public Health in Mysore, Bangalore.

Re: Excess Water revenue recoverable from house-connections in the Sanitary Board Area.

--

With reference to your letter No.C.1159-13 dated 20th November 1941, observing that the proposals now submitted take into account the expenditure incurred during 1940-41, while the recommendations already made refer to the period ending with June 1940, I hav the honour to submit herewith another copy of this office letter No.668 dated 4th November 1941, altering all the figures so as to pertain to the period ending with June 1940.

"COPY"

G. H. Seshoou

for Director of Public Health.

Letter No.668 dated 4th November 1941 from the Sanitary Engineer Bangalore, to the Director of Public Health in Mysore, Bangalore.

Re: The Excess water revenue recoverable from house connections in the Sanitary Board Area.

With reference to your Memo No.1159-6 dated 27th May 1941, forwarding copy of letter No.L.8305 dated 17th May 1941 from the Secretary to Government, Law Department, requesting that information may be submitted regarding the actual amount invested on the installation of meters, etc., I have the honour to enclose herein an extract from the "C" Register connected with the K.G.F. Water Works, Bethamangala from the year 1921-22 to 1940-41, and to state that beyond the entries made here, no further details are available.

The expenditure incurred upon meters consists of two major items, viz., purchases and repairs. From a perusal of the statement it will be seen that under purchases there is an expenditure of Rs.5,173-15-0 during the year 1921-22, while the next expenditure is only during 1930-31. This indicates that the expenditure of Rs.5,173-15-0 has been incurredupon the venturi meter installed for guaging the supply of water to the Mines, and hence this item of expenditure has been deducted in the enclosed statement. After this deduction the total outlay upon purchases up to end of 1939-40 will be Rs.5,489-11-3, while the expenditure on repairs up to the same date will be Rs.3,788-6-4. These items of expenditure pertain not only to the meters fixed on the house connections in the K.G.F. Sanitary Board Area, but also to the Venturi meter installed at Champion Reefs for guaging the quantity of water supplied to the Mines. It is not possible to allocate the expenditure between these two definitely; hence it is proposed to debit half of the expenditure to the K.G.F. Sanitary Board, the other half being considered as being incurred upon the maintenance of the Venturi Meter.

Calculated on this basis the expenditureto be debited to the Sanitary Board Area will be Rs.4,639-0-9.

In page 3 of this office letter No.931 dated 30th December 1940 recommending the refund of the amount to the K.G.F. Sanitary Board

SECY, LAW DEPT. 21 JULY 1942 GOVT OF MYSORE

Re. the exact amount of Water Charges recoverable from the K.G.F. Sanitary Board

---

In continuation of this office letter No.589/CLAD dated 27-6-42 on the above subject, I have the honor to enclose copy of reply No.751 dated 26th/27th June 1942 received from the Sanitary Engineer for favour of your information.

From the replies of the Sanitary Engineer, it is seen that the Work Registers for the years 1931-32 to 1933-34 are not traceable in his office and the figures furnished by him for these 3 years in the statement annexed to U.O. file are, therefore, not verifiable. The figures furnished for the year 1930-31 are verified and found to be correct. As regards the figures for the years 1935-36, 1937-38 and 1938-39, the Sanitary Engineer reports that the Division Office figures are correct for the reasons stated in his letter

Letter No.751 dated 26/27-6-42 from the Sanitary Engineer, Bureau of Sanitary Engineering, Bangalore, to the Comptroller in Mysore, Bangalore

Particulars regarding purchase and repairs of meters in K.G.F.Water Works, Bethamangala

With reference to your letter No.491/BLAC dated 23/25th March 1942 and in continuation of this office letter No.693 dated 3rd June 1942 on the above subject, I have the honor to state that a complete search was made in the old records of this office. Only the C Register of the year 1930-3 was found. Those pertaining to the years of 1931-32 and to 1933-34 could not be found. The figures for 1930-31 are noted in the margin. In the absence of the C Registers for the period from 1931-32 to 1933-34 the figures given by the Sub Division may kindly be admitted as the figures of the Division, and the Sub Division agree except in a very few years.

The differences found in the years 1935-36, 1937-38 and 1939 were verified in consultation with the Sub Division. The Sub Division has sinc accepted the accuracy of this office figures for 1937-38. In the year 1935-36 the difference was due to misclassification in the Sub Division and the Divisional figure is therefore correct. In the year 1938-39 th difference was due to payment of Railway freight not having been includ in the Subdivision.

Note regarding water supply maintenance charges and water revenue.

According to Government Order No. P.W. 1131-94.M.6416-79 dated 24th January 1921, the Board has to pay 0-9-6 per --- thousand gallons of water supplied to the Sanitary Board Area. The question of water connections being given to private -- houses appears to have been taken up in the year 1930 when Government were pleased to order that a charge of 0-15-0 per thousand gallons be levied from private consumers by the -- Sanitary Board. As water charges which were levied on the above basis were being recovered by the Water Supply Department and credited to their funds, the Board claimed the -- refund to the Sanitary Board of the difference between 0-15-0 and 0-9-6. The question is under the consideration of -- Government having been recommended by the Sanitary Bureau. The question was further examined by the Board in August last and it was felt that as the Board has been paying Rs. 38,600/- a year both for cost of water and distribution charges, it is but right that the entire revenue realised by Government by way of water charges in the Sanitary Board Area should be credited to its funds, and not merely the difference between 0-15-0 and 0-9-6. The Sanitary Engineer Mr. C.R.Iyengar who was present at the meeting on 20th August 1943 conceded the principle, and promised to re-examine the question. But he being since transferred, the matter rests there. On principle the Board is entitled to the full revenue from private -- connections, since it pays for water and bears the distribution charges.

Deputy Commissioner,
KOLAR DISTRICT.
